"PLYMOUTH" Saves Your Time and Money

Bothersome knots, frequent breaks and snarls—these come from using cheap twine. They cause delays and breakdowns that amount to many times the cost of the twine. You can avoid this extra cost by using PLYMOUTH. No getting down from your seat to loosen snarled places; no stopping to thread up; no loose sheaves to re-bind and no lost grain.

PLYMOUTH BINDER TWINE

always satisfies. Wheat growers say, "PLYMOUTH is the most even twine ever made." Any man who uses PLYMOUTH will tell you it has the fewest knots and causes the least trouble. Works perfectly on both old and new binders. Saves many times its own cost. Goes farthest. Always marked with the sheaf-of-wheat tag, which guarantees a smooth-running, strong, full length twine. Call and let us tell you more about PLYMOUTH. Ask for free booklet on twine.

Blackard-Johnson Hwd. Co.

The celebration of the first anniversary of the founding of the town of Slaton was pulled off there last Friday and Saturday. It was a great event. There were lots of Snyder people there. The Cowboy band furnished music for the occasion. There were all sorts of fun going all the way from foot

to Mollie Bailey's show. Slaton is about the liveliest and most thrifty yearlings in the west.

Work will begin right away on the Santa Fe cut off from Slaton to Texico. The main line of the Santa Fe will be used from Slaton to Lubbock where the new road is going all the way from foot to connect.

Have you been around to see our beautiful line of Wall Paper. We want your business. WARREN BROS.

Snyder would gain immense prestige as a pleasure city if we would lay out and improve a park on the banks of Deep Creek in the South part of town. Such a place properly made and kept would be well worth all it would cost.

I have 320 acres in Terry County to trade for a good 1-4 section here. This is a good proposition. Come in with your proposition.

Walter Carry says he once tried running for office with opposition but now he is running without and he likes this way the best. There is not so much uncertainty about it.

Railroads are making a special rate of \$23.75 to Las Vegas and the bulletin board says that it will be worth the price to see Flynn whip the nigger. If the nigger should whip Flynn, the price may be different.

Rail reports are good all over the West the plains country, the Panhandle and north and central Texas. This gives assurance of cotton and feed crops and will save the corn crop which had almost gone the limit.

It would be an easy matter to build a substantial dam across Deep Creek and create a lake that would be a real source of Commercial and Social benefit to the City and surrounding country.

Now that we have good rains, there ought to be a revival of interest in caring for and beautifying the City Cemetery. We owe it to our lamented dead and the sorrowing living to make that sacred precinct as pretty as possible.

Will Bore for Gas.

It is reported that a company has been organized to proceed with the development of the oil and gas field at the Scoggin-Brown ranch in Kent county and work is to be resumed in two or three weeks. There are said to be strong evidences of gas there.

Senator Root was made temporary chairman of the republican convention in Chicago over the strenuous protest of Roosevelt and his forces. This indicates a complete Taft control and the nomination of Taft.

Richard Webb's experience in rescuing his live stock from the flood Monday night was really exciting. He saved the pig, but the old hen died at her post.

At the recent session of the Commissioners Court an order was passed putting sections 17, 24, 25, 32, 145 and 150 of Block 2, H. & T. C. survey into the Snyder voting precinct. These sections were formerly in the Camp Springs precinct.

The state campaign agents will get busy now telling all sorts of tales.

It looks like the big steam roller is about to run over Roosevelt at Chicago. The machine may mash him but it won't look like anything afterwards.

Even the negro delegates on the Taft side are disposed to jeer at the Roosevelt supporters.

Now, since we have had good rain and crop prospects are the best known in years, why shall we not get busy and secure the Gulf and Estacado railroad.

There has been some little activity in the matrimonial market this week but there is plenty of material for a more active movement in that line and with a good crop year at hand, there is some probability of something doing.

Our esteemed friend, W. L. Forrester of the Graym Drug Company took his little daughter to Colorado City last week to have an operation performed. The little girl's tonsils were removed and she was relieved of adenoids. The little lady is doing nicely.

Our good friend, Mr. B. L. Gibson was in Saturday from Ennis Creek and paid the Signal a pleasant call and moved his data up a full notch.

He says crops over there are needing rain. His early maize is beginning to head and will suffer unless rain comes very soon.

A horse attached to a buggy being driven by Mr. Miller's little boy Thursday evening ran away on the north side of the square and dashed on to the sidewalk at Lockhart's barber shop, breaking a plate glass window and a lamp globe in front of the shop.
